

GU Trading Argentina

About us

We are a German company established in Argentina since 1998 with the name of **GU HERRAJES SA.**

During 2012 we have created a new area named GU Trading for exporting goods from Argentina to the rest of the world.

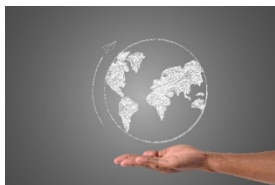

Our core business is to offer our clients the correct products for each of its necessities.

For the GU team, customers and suppliers are our partners and our effort is aimed on that.

We work every day developing a close relationship with our customers, offering them a reliable service with excellent quality products.

It is important for our customers to have a permanent advisory about market tendencies, commercial opportunities and any other information required for their business decisions.

GU Trading Argentina

About us

We offer all the logistic and the follow up of the business until the products are ready for being delivered.

The products we offer reach the quality asked by the European Community.

Part of our professional team is the German & Argentinean Industrial and Commerce Chamber (AHK Mercosur) and also MGI who audits the company.

Buena Vista Winery – Omertá Wines

This is a family owned wine producers who came to this land in the late nineteenth century from Italy. Where already the ancestors grew their vines.

Future generations have been able to preserve the quality Omertá of their wines.

In each generation a child is chosen to carry out this ancient art of creating wines. The whole family is involved in various processes, care of the vineyards, the fruit harvesting, processing, marketing and fractionated.

The vineyards are located in the top Argentinean Cuyanos valleys:

- Valle de Agrelo Luján (1.050m altitude),
- Valle de Medrano (850m altitude),
- Valle de Reduccion (950 m altitude).

The development of the grapes is done without stalk, with selected yeasts and minimal maceration of 21 days, capturing all the aromas and colours characteristic of each variety.
